

Circles.

Politicians are seldom what they scream.

The too tender heart is the world's pin cushion.

A friend in need is a friend—usually shun.

What is success? Only failure with a fresh coat of paint.

An American is never so energetic as when he tries to be idle.

Tell the world you are tired of life and the world is tired of you.

What you call temper in your wife you call temperament in yourself.

A man is never so utterly unoriginal as when he is lovelinking or praying.

Put a beggar on horseback—and he'll ride to the first place where he can sell the horse.

Short Stops.

A good many of us have ambition and don't know what to do with it.

A man can be a weather prophet, but no man cares to guess on women's fashions.

No matter how many mistakes some men make, they always have a good excuse ready beforehand.

The man with two wives is always censured twice as much as either of the wives.

A great many big deeds are credited to ambition, when vanity is the moving cause.

While Ponce de Leon was hunting the fountain of youth no doubt his wife was visiting the beauty specialist and the hair stores.

The man who sends you a gift horse is always asking you how you like its teeth, anyway.

There are as big fish in the sea as ever were caught, because the big fish always get away.

Eli Timms has decided that all matter is a manifestation of mind, but he has so far been unable to think a ton of coal into his bin.

After a man has been cured of dyspepsia he begins experimenting with wels rabbits and lobster salad, just as a divorced man prices engagement rings again.

The Future of Dairying.

The increasing demand for milk indicates that there is money ahead for the wise dairyman. Good cows require the attention of a good man in order to be profitable. Abundant food, congenial stables and kind treatment are essential. When these can be assured, fill up the stables with high grade cows and success is yours. Remember that the low producer is a bad investment, at any price, but treat the cow liberally endowed with dairy capacity is always a powerful factor for good upon the farm. The sire is often much more than half the herd and through his purity of breeding the profitable cow must always be sought.

Short Essay on Editors.

I don't know how newspapers came to be in the world. I don't think God does, for he didn't anything to say about them and editors in the Bible. I think the editor is one of them missing links you read of. He stayed in the bushes until after the flood, and then came out and wrote the thing up, and has been there ever since. I don't think

he ever dies. I never saw a dead one had never heard of one getting licked. If the editor makes a mistake, people say he ought to be hung; but if a doctor makes any mistake he buries them and folks dassent say nothing, because doctors can read and write Latin. When the editor makes a mistake, there is a lawsuit and swearing and a big fuss; but if a doctor makes one there is a funeral, cut flowers and perfect silence. A doctor can use a word a mile long without anybody knowing what it means; but if the editor uses one he has to spell it. If the doctor goes to see another man's wife, he charges for the visit; but if the editor goes he gets a charge of buckshot. When the doctor gets drunk, it is a case of being over by the heat, and if he dies it's from heart trouble; when an editor gets drunk it is a plain case of too much booze and when he dies it is from a cause too disgraceful to speak of. Any old college can make a doctor; an editor has to be born.—Rapid River Rustler.

The Road To Success

has many obstructions, but none so desperate as poor health. Success today demands health, but Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, and tones and invigorates the whole system. Vigorous body and keen brain follow their use. You can't afford to slight Electric Bitters if weak, run-down or sickly. Only 50c. Guaranteed by Paul Drug Co.

The time is near at hand when more attention will be universally given to net proceeds than has been done. The professional poultryman has been keeping books with his biddies, but it is the exception that the farmer keeps any account of the expense or income from his fowls. If he did, there would be a greater improvement in the farm fowls.

Feeding Cattle Scarce.

Good quality feeding cattle are as scarce among marketings at all points at this time as they were a few months ago. Those who have well-bred young steers evidently feel that they are worth more at home, with a record corn crop in course of growth, than markets, says Drovers' Journal. Feeder cattle buyers are confronted with a situation which possibly many had not anticipated. Those who did not stock their pastures with the relatively cheap steers available a few months ago, and who now come to market looking for good quality kinds, find that such grades can only be bought by competing with killers and paying killers' prices. A short time ago both corn and feeding cattle were considered too high in price. A few weeks hence the feeders may not stop to consider corn values, but may face a much higher cost of feeding steers.

It will pay anyone to take some pains to prepare a place where the cockerels may be shut away from the pullets. With a lot of young cockerels continuously tormenting them the pullets do not get to grow as they should. Unless the birds are kept for breeders, or for sale as breeders, it pays better to let the cockerels when they weigh two pounds each, or a little more, than to keep them until they have made their full size.

Eradicating Sheep Scab.

The meeting of sheep breeders at the fair grounds was the most largely attended convention of the week. The vital question before the meeting was to devise ways and means for eradicating the scabbies from the sheep of the State and of securing an early removal of the government quarantine which now rests over us.

There was some disposition among some of the attendants of the meeting to air their views about details at more length than was profitable. Gov. Wilson addressed the meeting, and while modestly disclaiming any knowledge of the sheep industry, he pledged himself to co-operate with breeders in an effort to have the quarantine removed. Addresses were also made by W. T. Chilton, Secretary of the Sheep Breeders' Association, Mr. McKee, Vice-President, J. W. Newman, Secretary of the State Fair, Senator Froman, Dr. McCormick and others.

At the conclusion of the discussion a resolution was unanimously passed urging all sheep men to dip their sheep and appointing a committee to draft a bill to be presented to the next Legislature which would make our State laws conform to the requirements of the National government on the subject. We will publish this resolution in full next week.—F. H. Journal.

Farm Notes.

Overfeed may be bad, but underfeed is still worse.

Keep the young animals growing. Little chance of overfeeding.

One good cultivation during a dry spell is as effective as a shower. Try it.

Stick to your job. The farmer is the most independent of any class of workman.

Hogs thrive best when allowed to graze. It is economy to provide suitable fenced fields.

A bit of woodland fenced in with the pasture provides the ideal condition for the stock.

In sections too far north from crimson clover, barley and Canada peas make a good cover crop. Borax and sugar dissolved in boiling water and placed where ants are troublesome will drive them away.

The sow with young hogs should never be pastured with other large hogs. It means trouble with probable loss.

It is better to spread lime over the field to be so treated a week or two before putting in the wheat or rye. The drill can be used in spreading lime.

Tobacco waste and salt mixed in proportions of about one part tobacco to five of salt should be kept before the sheep at all times so they can help themselves. Where this is done there is no trouble from stomach worms.

The wise dairyman raises his own cows.

Good cows as a rule are raised, not bought.

The troughs must be kept clean during the hot days.

Liberal rations and commodious quarters make for splendid sheep gains.

Filthy troughs are sure to breed disease among the hogs. Keep things clean.

Very little more trouble or ex-

pense to raise a blooded animal than it is to raise a scrub.

Poultry confined to a run must have green food supplied them if they are going to thrive.

The mouse in the granary is a visitor which the thrifty farmer will not suffer to remain.

The nearer poultry can be kept in the natural state the harder they will be, and the greater profit they will return.

Been swimming or fishing this summer? Take a half day off and go with the boys. It will bring dad and the boys closer together.

High prices encourage sheep raising, but don't jump into the business too rashly. Begin in a small way and work up. Buy a few ewes and a good ram.

It is the thriftest farmer who is certain that farming does not pay. Neither would any other business pay handled in the same way as he does the farming.

Revival of An Old Style.

One of the new bracelets that is attracting attention is a band of gold from a half inch to an inch wide, either heavily engraved or covered with a pattern of black or colored enamel.

The younger generation looks at these bracelets with envious eyes, for they are not cheap; but occasionally a clever girl realizes most novelties are only old things come again.

She remembers that in her grandmother or mother's jewel case she has seen a bracelet almost identical with the new one her wealthy friend is sporting with such pleasure. Straightway it is claimed as her requisite before another member of the family awakes to its desirability.

If you have ancestors, even unto one generation of people who could afford bracelets, it behooves you to ransack the box where discarded trinkets are kept. You will probably come upon the very newest thing in bracelets, for this particular style was popular in the middle of the last century.

An Oklahoma boy put up what he considered a good joke on his mother by advertising in her name for a husband. He is now being walloped by a good, stout stepfather, the surprised but not at all frustrated mother having annexed the first man that came along, and doing well at that, as the neighbors all allowed. You can do anything in this world that is doable by proper advertising.

In a speech at St. Paul, President Taft paid high tribute to Gov. Johnson, saying he joined in the prayers that his life be saved. The president said the governor was a man whom the State and nation could not afford to lose, and added: "His ability, his great courage and his common sense can not be spared. He is too valuable to the people of his State and the people of his nation, who doubtless will insist in the time that he shall serve them."

The birthday of President William H. Taft September 15 was remembered by King Edwards, who sent the Hon. Arthur Walsh his master of ceremonies, to the American Embassy with the request that his majesty's sincere congratulations be conveyed to the President. Mr. Taft's reply was received at the Embassy and forwarded to the King in Scotland.

Taking the Census.

Washington, D. C. Sept. 18.—About sixty-five thousand enumerators will be needed for the thirteenth decennial census of the United States, and also of Hawaii and Porto Rico, according to estimates prepared for Census Director Durand by Geographer Chas. S. Stone, of the census bureau, in whose division the enumerators' districts are defined and fixed. This is an increase of about 11,000 over the number of schedule-carriers in the census of 1900.

Director Durand points out that the per diem in 1900, according to the provisions of section 16 of the act approved March 3, 1899, were required to work ten hours a day, but, in the act providing for the thirteenth and subsequent decennial census, the time is fixed at 9 hours a day. This reduction in the daily hours will require an additional number of enumerators in the proportions of the country in which the per diem rates will prevail.

The present census law requires that the enumeration of the population shall be taken as of the 15th day of April, 1910, and the enumerators must forward their returns to the supervisors, except that in any city having 5,000 inhabitants or more at the preceding census, the enumeration shall be completed within two weeks.

In looking over the details of the estimates, Oklahoma and Washington are conspicuous, as they will call for about a 300 per cent. increase over the 1900 force of enumerators.

Pennsylvania will continue in the leadership having slightly the largest number of enumerators; the 1910 force being estimated at 5,200 against 4,720 in 1900. New York is second with a probable 5000 for 1910 as compared with 4541 and 1900. Next will come Illinois, then Ohio, Texas, Missouri, Massachusetts, Indiana, Michigan, Minnesota and California, all needing 2000 or more enumerators each.

Kentucky will need about 1600 enumerators. In 1900, 1329 were used.

Ohio has produced the champion mean man. Imperial Texas sought the dubious honor, presenting three candidates. The first will not drink as much water as he wants unless it is out of another man's well. The second makes his family write "small" so as to save in ink, and the third stopped his clock to prevent the works from wearing out. Ohio's niggard hero, who lives in Athens county but who has imitative relatives everywhere, refuses to take the daily paper because of the strain on his spectacles through reading it.—Cincinnati Enquirer.

News Notes.

An earthquake occurred at Granada, Spain, causing great alarm, but so far as is known no damage was done.

The annual reunion of the Society of the Army of the Cumberland will be held in Chattanooga on October 13 and 14.

The street-car men of Omaha and Council Bluffs went on a strike Sunday over wages, conditions and hours of employment.

Charles N. Matthews, cashier of the First National Bank Louis-

ville, died suddenly following an attack of acute indigestion.

Mgr. Falconio, the apostolic delegate to the United States, reviewed a parade of the Central Verein in Indianapolis. There were 10,000 persons in line.

The fortieth anniversary of the founding of the prohibition party will be celebrated at Chicago. A parade of 100,000 prohibitionists is planned.

The police records of Nashville show an average of six and two-sevenths arrests per day for drunkenness since the prohibition law went into effect on July 1 this year.

Another \$2,000 was sent by the American National Red Cross Society to American Consul Kenna at Monterey, Mex., to be used for the benefit of the flood sufferers.

The residence of Charles I. Gibson, at Youngstown, O., was dynamited. Mr. Gibson is general manager of a sheet and tin plate mill at which a strike is in progress.

Bishop William George McCloskey, for 41 years head of the diocese of Louisville, and the oldest bishop in the hierarchy of the Catholic Church in America, died at the Preston Park Seminary in Louisville.

At Taylorsville, burglars entered the depot and carried off the safe, which is a small one, weighing about 300 pounds. In it were checks, money orders and about \$80 in money, besides milk tickets, excursion tickets, school tickets, family tickets and several 1,000-mile tickets.

Placarding the neighborhood with warnings that unless the three white men who located in the strictly Negro town of Taft, Okla., last week, left town immediately death would be their punishment. Negroes dynamited the store of one of the whites in that town. The white merchants declare they will remain.

Up Goes Price of Meat.

Present high prices of meats, with the prospects of another advance of two or three cents a pound before the snow falls, suggests that there will be a general revision of family bills of fare.

Even now the cost of meats is so high that many families cannot afford to have meat oftener than two or three times a week, and among the poorer classes beef and pork are now regarded as luxuries. What is to be done if prices soar higher?

In these days meat is not regarded as essential as it was formerly. There is a growing tendency towards the use of other foods, a sort of vegetarian tendency. We are not exponents of the so called vegetarian diet system, nevertheless it is our opinion that it could be profitable adopted in a rational way as a means of reducing the cost of living and, at the same time, with out detriment to the health of individuals.

In support of a diet that will exclude the daily eating of meat, many reputable physicians are authority for the assertion that Americans eat too much meat. This is undoubtedly true, and consequently if the increasing cost of beef, pork and mutton will compel us to eat less meat, the result may be a blessing.

You will save money if you buy beef getting one cent on farm wagon. P. J. Wilson, Russell Springs, Ky.

Ladies This is For You.

Alcohol is better than water to clean glass.

Porcelain pans may be whitened by adding borax to hot water. Rice water may be used to starch the finest lingerie garments.

Apply a raw onion to the sting of a wasp or bee to stop the pain.

A Panama hat can be greatly whitened by rubbing it with cornmeal.

Cold lamb is much improved by having a cream dressing poured over it.

Bunches of sweet clover hung in the closet will, it is said to keep away moths.

Borax may be used to set black or black and white cotton goods for washing.

Nearly any salad can be improved by sprinkling it lightly with pulverized sugar.

Anemic children will be benefited if rubbed all over with olive oil after each meal.

Meat will not brown quickly, and will burn, if a pan of water is placed in the oven.

Iced tea is improved in flavor if a dozen cloves are allowed to soak in it for a few minutes.

To remove an ink spot from the fingers moisten it and touch it with sulphur end of a match.

Rust stains may be removed from white goods by applying lemon juice and salt to the spot.

Flowers dipped in or gently painted with melted white wax will remain as if fresh for a long time.

Shaving magnesia is a good substitute for talcum, as it is harmless and does not adhere to the skin.

An excellent cement for mending china may be made by mixing plaster with gum arabic and water.

The addition of a beaten egg to the mashed potatoes used for potato cakes will be found worth while.

Corn rice mixed with shredded cocoanut and a well beaten egg is very palatable when made into fritters.

To clean marble, take two parts of pumice and one of salt, all in powder, and mix in a paste with water.

Steel knives that are not in general use can be kept from rusting by rubbing them with a strong solution of soda.

Stains and discolorations on tinware can be removed by dipping a damp cloth in common soda and rubbing briskly.

Epsom salts dissolved in hot water and applied to a window with a brush, will give it the appearance of ground glass.

The suggestion of Gov. Sanders, of Louisiana, to the Governors of other States that they urge the farmers to hold their cotton for higher prices is apparently meeting with favor among the majority of these executives. Several responses have been received at the executive offices at Baton Rouge, sanctioning the views of Gov. Sanders, and promising perhaps similar proclamations. Gov. Sanders recently issued an address urging the holding of the staple by the planters of Louisiana.

A new \$8,000 poultry exhibition building is being erected on

the grounds of the Utah State Fair Association at Salt Lake. The building will be constructed entirely of steel, concrete and glass, 67x80 feet, and will be one of the finest buildings of the kind in the United States. The equipment will require an additional outlay of \$1,300.

A Civil Question.

A question now we would propound For your consideration, Can everybody and the boys All thrive on education?

Though be it wise or otherwise There's some prepared to try it, But in the end you may depend They'll find it feeble diet.

When all our creature comforts fall As manna for the wishing, The young folks then can stay in school The old ones go to fishing.

They tell us times are out of joint That labor's growing crazy With not enough sustaining stuff, For all the lame and lazy.

When Johnie learns like Mary's lamb To violate the rule, The old man yields the lure up And John goes off to school.

When he's out promouncing now You'd think he's on a race, He goes a kind of cross between A fox trot and a pace.

At baseball he is up-to-date, On farming he is flippant For Johnie wouldn't smite the earth To slay a deadly serpent.

The old folks strive to hold the fort While he's away in college For well they know that our John Is being crammed full of knowledge.

They're like the dear old Dame who thought Booklarin ussard And wanted all her gals, she said, To learn the grammar.

J. T. Jones, Montpelier, Ky.

Farm and Garden Notes.

How about the ground you're going to sow with alfalfa this fall?

It is better to sow rutabaga turnips in rows than broadcast.

Apple culture in Texas should be developed more assiduously.

Rotation must be practiced in the garden or truck field to obtain the best results.

Black Winter or Spanish radishes should be sown in August or September with turnips.

He who lets the weeds go to seed this month is storing up for himself infinite trouble next year.

It has been said that "weeds are the devil's flower." Certain it is that they play the mischief with a crop.

A fall crop of potatoes will be found profitable, if the grower has kept his land in good tilth during the summer.

The eighth annual convention of the National Nut Growers' association will be held at Albany, Ga., October 12, 13 and 14, 1909.

All decaying cabbage should be dug up and destroyed. Black rot and other fungus diseases and insect pests will thus be held back.

All rubbish should be removed from the garden before it is plowed. Debris of any sort is annoying and interferes with cultivation.

The strawberry beds set out in early fall—the earlier, the better—make the larger crop of berries. Plants should have sufficient moisture. It is necessary, at times, to use the garden hose in order to supply them with the needed moisture.

The success of the fruit grower depends very largely upon his judgment in selecting and his skill in the management of the soil upon which he grows his crops. So important is the soil that success of failure depends upon the grower's industry and skill in its management.

PROGRAM.

The Following is a Program of the Teachers Association at Antioch, Saturday October 2nd, 1909.

Music.

Invocation.

Roll call—to which all the Teachers in Educational Division No. 2 are expected to respond.

Welcome Address—Dallas Firquin.

Response—T. A. Strange.

Why Teachers Fail—Alvin Ross.

The Advantage of Literature in the Public Schools—R. L. Campbell.

The Need of Better Teachers in our Common Schools—Jacob Reece and Even Thurman.

NOON.

How to Teach Pure English—Miss Nannie E. Rowe and Miss Ethel Moore.

The Means of Securing Good Order—Charlie Harness, Tilford Petty and Walter Taylor.

What is Meant by Method in Education—Miss Estelle Willis and Zella Field.

Why is Professional Training Helpful to Teachers—Prof. R. R. Moss.

Its Importance—Mrs. Georgia R. Shelton.

How May Geography be Applied—Miss Maggie Walker.

Arithmetic—Miss Mamie Moran.

Grammar—Miss Carrie Bradshaw.

The Influence of environment on Language of Children—Miss Pearl Hindman and Eldridge Barger.

Daily Preparation—Miss Halie Rodgers and Miss Agnes Conover.

Doxology.

Grider's Store.

We are still having plenty of dry hot weather.

J. W. Rexroat lost a good work mule one day last week, we consider it a great loss for Mr. Rexroat had refused \$200. for the mule, it was running and struck against a snag.

Elbert Darnell bought a team of six year old work mules from Mr. Wean, of Webb's X Roads, price unknown.

Logan Absher still remains in a bad shape.

Several from here went to Columbia Monday.

A large crowd of the young people attended society at Liberty last Friday night and all report a nice time.

Bro. Gailor preached his last sermon at French Valley last Sunday for this year, we hope to have him back.

Several of the young people expect to attend the teachers association at Freedom next Saturday.

Once in a while we can see a candidate slipping around.

James Darnell bought a track of land from Mont Powell for a good price.

The French Valley boys met the Blair school house boys again last Saturday afternoon for another ball game, as the Valley boys are sorry for the Blair boys we wont mention any farther.

Girl Doing Good Work.

The reform school for boys, in

Bucks county, Pennsylvania, is under the direction of Miss Lucy Burd. She has reformed over 100 untrained, unmanageable boys in the last five years, and all have become useful and industrious. Some have enlisted in the navy, others have gone into manual training schools and some have become farmers.

M. E. JONES
VETERINARY SURGEON & DENTIST

Special attention given to Dentistry and all diseases which the dumb brute is heir to. I am prepared to keep and treat stock. Persons who desire to see me professional or can find me at my office over Paul Drug Co.

Phone Residence 968
COLUMBIA, E. KY

Measured in Horse Power.

When the steam engine was placed upon a commercial basis by Watt and his successors it seemed entirely natural that its power should be expressed in terms of the effort of a horse and in spite of all later suggestions for new units the horse power remains as the measure of the greatest aid to human effort which has yet been produced.

The engines of to-day have their power expressed in terms of thousands of horses and this power is distributed and applied very largely by means of electricity, this method permitting both a convenient distribution and unequalled facility in control and manipulation.

The horse-power is expressed in terms of foot pounds, or in other words by means of the idea of lifting a weight, and it is to the lifting of weights that electrically transmitted power has been most effectively applied, —Cassier's Magazine.

Go With a Rush

The demand for that wonderful Stomach, Liver and Kidney cure, Dr. King's New Life Pills—is astounding. say they never saw the like. Its because they never fail to cure Sour Stomach, Constipation, Indigestion, Biliouness, Jaundice, Sick Headache, Chills and Malaria. Only 50c. at Paul Drug Co.

Wednesday evening shortly after 6 o'clock, Danville people observed a large yellow balloon passing over the eastern end of the town. The balloon started from Dayton, Ohio, at 6:30 o'clock Wednesday morning and landed near the Shelby farm in the vicinity of Moreland, Wednesday night about 8 o'clock. Two Dayton men made the trip in the balloon. They came down within talking distance at the farm of Mr. Nelson May on the Lexington pike. Mr. George Robinson of this city, talked with the men and they told him that they were from Dayton, Ohio. After landing at Moreland the men talked freely. They said they knew when they struck Kentucky by the fact the people began shooting a them and for that reason they were forced to remain several hundred feet in the air. Many shots were fired at them in the City and several dove hunters in the Lexington pike locality pumped a few charges of shot at them. The balloonists stated that as they crossed Kentucky river, a man in a ferry boat took deliberate aim at them and that they had a narrow escape at that point. They left yesterday afternoon for their home in Dayton. —Danville Advocate.

HUMBLE

KENTUCKY

A National Loss.

In the early dawn of to-day Gov. Johnson, of Minnesota, passed to his reward. Born some forty-odd years ago of Swedish origin, in the State of which he was three times Governor, a worker from childhood, pursuing his studies under conditions, the most arduous, John A. Johnson was to illustrate the extraordinary prerogatives of this new American land in which his people had made their home. From the first he evinced a rare capability and a rare industry, a genius for touching the life and the sympathies of his fellow-men at many and various points, such a grasp of affairs, so clear and well balanced an outlook as to be designated inevitably as arbiter in many a vexed situation.

The very lowliness of his beginnings, the very handicaps of his start were never lost sight of in the dignity of his office, which he held clean and high as a trustee of the people; the cause of freedom and humanity was his cause, and recognition of his championship of the West—sometimes is open defiance of the East—drew to him the suffrages of the electorate without regard to party lines. It happened thus that, Gov. Johnson, a militant Democrat, was thrice chosen as Chief Executive of a typically Republican State.

With Harmon, of Ohio, and Marshall, of Indiana, he was part of that never hope from which the party had such good cause to augur uplift and encouragement; less a scholar than the one, more tolerant than the other, he preached a doctrine of emancipation from shams and shakles which united all discords. —Lou. Times.

BY THE

Adair County News Company.

INCORPORATED.

CHAS. S. HARRIS . . . Editor

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Postoffice as second class mail matter.

WED., SEPT. 29, 1909.

ANNOUNCEMENTS

FOR CIRCUIT COURT CLERK

We are authorized to announce G. F. Burress a candidate for the office of Circuit Court Clerk of Adair County, subject to the action of the Democratic party.

FOR JAILER.

We are authorized to announce C. G. Jeffries, a candidate for Jailer of Adair county, subject to the action of the Democratic party.

We are authorized to announce A. A. Miller a candidate for Jailer of Adair county, subject to the action of the Democratic party.

FOR MAGISTRATE.

I am a candidate for magistrate in the sixth District of Adair county, subject to the action of the Democratic party.

J. M. Willis.

ACTION OF THE DEMOCRATIC COMMITTEE.

In accordance to a published announcement the Democratic Committee for Adair county met in Columbia last Saturday afternoon for the purpose of naming candidates for county offices. The committee convened at 1:30 and discussed various gentlemen whose names had been mentioned for position, some of whom being avowed candidates. After deliberating until 5 o'clock the committee decided that it would name only two candidates, and Mr. Gordon Montgomery for County Attorney and Mr. Walker Bryant for County Court Clerk were unanimously nominated. After the nominations were made Messrs. Montgomery and Bryant were escorted to the Committee room where they gracefully accepted the nominations. Candidates for other positions also appeared before the Committee, stating that they were for the good of the party, and that the action of the committee was perfectly satisfactory. The committee then adjourned, peace and harmony prevailing.

In our judgment the Committee showed its wisdom in selecting Mr. Montgomery and Mr. Bryant, as they are both elegant gentlemen, well fitted for the positions they are now seeking. Mr. Montgomery is a son of Hon. Jas. F. Montgomery and is a lawyer of recognized ability. A man who thinks and who has opinions and is not afraid to express them. He was reared in Columbia and from his youth he has stood for the right on every pub-

lic question which has come before the county and town. No man questions his qualifications, and no man doubts but he would make a most watchful County Attorney. Mr. Montgomery will go over the county in the next few weeks and the voters will hear him on the affairs of the county and needs necessary to make it more prosperous.

There is not a better known man in Adair county than Walker Bryant. He stands high as a business man and is well-fitted for the office of County Court Clerk. He is a gentleman of the strictest integrity and is popular throughout the county. He proposes to conduct his canvass upon a high plane. He will seek votes upon his merits and will be thankful to those who will aid him by their suffrage in securing his election. It is only about five weeks until the November election, but within that time Mr. Montgomery and Mr. Bryant hopes to see every voter in Adair county.

The delivery of his lecture, "Right upon the Scaffold and wrong upon the Throne," throughout this part of the Eleventh Congressional District, is evidence that Mr. Powers seeks to ascertain the feeling of his party with a view of entering the political contest for a seat in Congress. It is also a fact that many of the active Republicans of this county, as in other sections, are desirous of his entry into the political situation and would doubtless use all their energy and sagacity to make him a winner over any other Republican who might seek that position, but regardless of the fact that the majority of his party in these counties are with him, yet it is a stubborn truth that he would have intelligent, active and unrelenting opposition from substantial Republicans should he enter the fight. It is not our purpose to do Mr. Powers an injustice nor to accuse his special friends and supporters of bad motives, but to speak plainly, his entry into the political interests of this District would open afresh the troubles of the past and instead of advancing the peace and prosperity of the people would evidently excite the passions and prejudices and broaden the breach which has existed for several years. That his tour is a political play; that his lecture seeks to strengthen partisan sympathy and more firmly engraft himself into the good graces and efforts of Republicans to heroize and reward, can hardly be doubted. It is not our purpose to engage in a Republican fight, for it is not our business and does not concern our interests, but living, hoping and trusting that the dark shadows that have hovered over our State and our district, for several years, may speedily pass into forget-

fulness and that Kentucky may soon be in the embrace of political peace and upright official conduct, we dislike to see any move that tends to the opposite. It is not a matter whether Mr. Powers is what he claims, a martyr, or a party to an assassination, the people are divided as to his guilt or innocence, as to his prosecution, or persecution, and no election can remove or produce a change in public sentiment. He could only be vindicated through evidence proving innocence before a trial court. This has been eliminated by Executive clemency. His admirers ought to consider the good of the district first and personal preference second. They can not fail to see that his candidacy means factional trouble in their own party and a reopening of the Gobel murder charges with all its bitterness, and that no good can possibly come from such a fight. A victory would not mean vindication, but merely the strength of factional power and leave his party divided and the district in turmoil. There are many able Republicans in the district whose records are clean and whose election would reflect credit, and if the Republican leaders truly have the good of the country at heart, if they cherish peace as a blessing, then Mr. Powers should be told to pursue an avocation of a civilian. His candidacy will prove an expensive luxury for the leaders who shoulder his cause. It will prove a mistake for his party and in the end disappointment for himself. His party has already done more for him than any other one man in the State. He is bound to know that his entry into politics is the introduction of strife and the intelligent leaders and backers of his ambition should well weigh the moral importance of such a conflict. That we should oppose his candidacy may well be expected, but to be plain and fair, to be clearly understood, our protest would be forthcoming were he a Democrat. This article is not prompted through hatred to Mr. Powers, but for love of the public peace. No man, regardless of party affiliation or ability, resting under divided public sentiment, whose record is stained with the accusation charged against him could get our support. If this accusation is wrong it is most unfortunate for him, if correct his election would be a stain, a black spot on the political morals of our district and State. It is to be hoped that he will see the cost his candidacy will give the district and that his political friends will see that his election can not vindicate and both yield for the public good.

The ovation tendered Dr. Cook by the citizens of his home city, Brooklyn, N. Y., at his arrival there was wild, happy and joy-

landed in Brooklyn the crowds were so large that the militia and police were barely able to keep down a riot, so eager were they to embrace the explorer. Dr. Cook was tendered a public reception at the Bushwick Club and was lionized by his home people throughout the day.

Gov. John A. Johnson, three times elected Governor of Min-

nesota, a candidate for the Democratic nomination for President of the United States in 1908, and looked upon by many throughout the country as the probable Democratic national standardbearer in 1912, died at St. Mary's Hospital at Rochester, Minn., at 3:25 o'clock Tuesday morning of last week following an operation

Joseph H. Stone,

Attorney-at-Law

Will practice in
this and adjoining counties.

Jamestown, Kentucky.

There are many who claim to be the best in the world, but when it comes to the quality of their work, they are far from it. Joseph H. Stone, Attorney-at-Law, has been practicing law for over 50 years, and his reputation is well known in this and adjoining counties. He is a man of integrity and high character, and his work is always done to the best of his ability.

Bishop McCloskey Dead.

Louisville, Ky., Sept. 17—The Right Reverend Bishop William George McCloskey died here this morning at five minutes after seven o'clock.

He was 86 years old the oldest member of the American hierarchy. He had no particular malady, but old age had sapped his vitality and he really died of exhaustion. He retained consciousness till the last and his mind was as clear as a bell. He was regarded as one of the most brilliant prelates in this country. He was born in Brooklyn, N. Y., and had been a bishop in the Catholic church for probably half a century.

The news that the grand old man was dead caused a tremor of sorrow, not only among his own flock, but throughout the Catholic world.

A Hurry Up Call.

Quick! Mr. Druggist—Quick!—A box of Bucklen's Arnica Salve—Here's a quarter—For the love of Moses, hurry! Baby's burned himself, terribly—Johnnie cut his foot with an axe—Mamie's scalded—Pa can't walk for piles—Billie has boils—and my corns ache. She got it and soon cured all the family. It's the greatest healer on earth. Sold by Pauli Drug Co.

Pointed Paragraphs.

A misery father maketh an extravagant son.

Blessed are they who expect little for they usually get it.

A man seldom gets very angry when he has only himself to blame.

It is sometimes better to try and fail than never to have tried at all.

Ever notice how things that are none of your business will interest you?

Any man may acquire a will of his own by hiring a lawyer to write it for him.

When a widow tells a man he is "different," that's his cue to sit up and take notice.

Unless you have a reputation as a fighter you can't afford to pose as a peacemaker.

It's awfully hard for a man to look sad when his wife is making preparations to spend a month in the country.

Do your work a little better than the other fellow and some morning you'll wake up and find yourself his boss.

Just about the time a man succeeds in accumulating all the money he wants, the alarm clock gets busy and wakes him up.—Chicago Daily News.

A Few Gems.

A good reputation is a man's best trademark.

Reputation is not what a man thinks of himself, but what others think of him.

A man's estimate of himself isn't apt to pass current.

Most men would put the value far too high.

Some few would put it too low.

Generally the estimate is in inverse ratio to the value.

An unprejudiced public may be trusted to strike a just level.

When it is announced that a new miracle-working device has been invented the world is skeptical.

If it is stated that Edison is the inventor, skepticism is changed to faith.

N. P. Willis, who is scarcely

remembered by a succeeding generation, considered himself the greatest American poet.

That was Willis' estimate.

Bryant, Longfellow and Holmes set themselves upon no pedestal, but their reputations were and are secure.

They rest upon the estimate of the public.

In the reputation of the Wizard of Mento the public puts its trust.

We can build, but we cannot dictate a reputation.

The Illinois State Food Inspector has sent a warning to egg dealers, as well as farmers and poultrymen throughout the State, that hereafter all eggs offered for sale must be fit for human food, and that cold storage and pickled eggs must be sold for what they really are and not as fresh eggs. Eggs that are partially incubated or rotten may not be sold at all, and such sales subject a person to dire penalties. This order is good enough to be copied by food inspectors of other States. Lets have it in Kentucky.

Will We Import Wheat.

Mr. Jas. J. Hill, the great railroad magnate, and the only man whom the late E. H. Harriman recognized as a rival and who has made a careful study of commercial and agricultural conditions in this country made the following significant statement at the American Bankers' Convention at Chicago this week.

"The idea that we feed the world is being corrected; and unless we can increase the agricultural population and their production, the question of a source of food supply at home will soon supersede the question of a market for our own products abroad."

Nearly all of Mr. Hill's speech was in the nature of a note of warning, showing that city and town population was increasing faster than country population, which means that food consumers are increasing much faster than food producers. It is alarming indeed to think of the United States being compelled to import bread stuff.

An Indigestion Remedy Free

Many people who are otherwise healthy suffer from indigestion, or dyspepsia. When you consider that the stomach and allied digestive organs are the most important organs of the body, it would seem that a disorder there is to be taken very seriously.

Dyspepsia cannot eat the things they like. Food sour in the stomach; then chronic constipation begins, or, as is often the case, you have been constipated all along, and the stools are forced and irregular.

But there is no use letting indigestion go until it becomes chronic and undermines your health. It is good advice to suggest to you that you get a bottle of Dr. Caldwell's Syrup Pepsin, the world's best stomach, liver and bowel tonic. It is what Dr. Fowler of Carson City, Minn., did and he is well today. Others who did the same and are now well. It is a liquid, acts gently, never irritates, and besides the laxative effect, contains exceptional tonic properties which strengthen the stomach and that is what is especially needed in indigestion.

All sufferers from indigestion who never used Dr. Caldwell's Syrup Pepsin can obtain a free test bottle by writing the doctor. It will be sent direct to your home without charge. In this way thousands have proven that this is the very remedy they needed to cure indigestion. Write once you use this grand remedy you will throw violent constipation, flatulence, etc., away.

If there is anything about you or your family that you want to know, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell Bldg., Monticello, Ill.

I have a good Jersey cow for sale will be fresh in 30 days. Price \$50. J. O. Russell.

Ostrich Feathers of Tripoli.

The usual kinds of ostrich feathers known to the trade come into the Tripoli market. These are whites, blacks, fennas, brocks, ruddies, blues, drabs and dross. The Arab dealers bring them in assorted packages of each kind, and it therefore requires expert knowledge to buy advantageously from the natives. The goods are sold by the "roll." (The Tripoli roll is about eighteen ounces.)

The feathers are washed and sorted, but not dyed or curled. They are washed in warm water, and when still wet are beaten. A handful of them are taken by the stems and slapped against the floor with a force that to the uninitiated would seem to be enough to break them to pieces. This is done to bring out the flues or barbs, the miniature feathers extending from the barbs, and gives the plumes a fuller, richer appearance. A good ostrich plume will have two or three layers of feathers; the tip should be perfect, and it should have no transverse cuts along the vane. For the retail trade two plumes are usually mounted together.

Burke as a Bore.

The most eloquent essay carefully prepared before the banquet delivered by one wanting the orator's gifts may as a speech be an utter failure. Burke is perhaps the most striking example of this. He simply drove everybody away. This was well and amusingly described by Lord Erskine to the American ambassador, Mr. Rush, who had asked him about Burke's delivery. "It was execrable," said he. "I was in the house of commons when he made his last speech on American reconciliation, the greatest he ever made. He drove everybody away. I wanted to go out with the rest, but was near him and afraid to get up. So I squeezed myself down and crawled under the benches like a dog until I got to the door without his seeing me, rejoicing in my escape. Next day I went to the Isle of Wight. When the speech followed me there, I read it over and over again. I could hardly think of anything else. I carried it with me and thumbed it until it got like wadding for my gun."—Westminster Gazette.

Euphonious Female Names.

Referring to a recent note on euphonious female names, it may be said that the eccentric Christian name attains its ripest vigor in the highlands. There the natives have a few names natural to the sex, such as "Barbara," though Barbara may be the name of the family cow—"the dear one, the dun cow." The great majority of female names are, however, frankly compounded from male equivalents. "Wilhelmina" is known in the south on the same principle. Andrew finds his female counterpart in "Andrewina," while "Malcolmina" and "Donaldina" are as thick as blackberries. One unhappy child among the natives of the present writer was wearily known as "Ava," and Ava she will be all her life. Her real name, when magnificently set forth in "Alexandrina Victoria Andrewina," and the abbreviation is formed from the initial letters—London Standard.

Success of One Piece of Music.

Very few know anything about Suppe, the composer of "Fatiniza" and several other operas and the father of the "Poet and Peasant" overture. The latter was composed to an entirely different piece and fell flat. The author then tried it at intervals of six months and a year with two other plays and no one found it pretty. Lastly, because there was not time to write a new overture, it was used with a long forgotten farce called "Poet and Peasant." The farce was successful and people endured the overture. Then somebody asked permission to publish it in a journal, arranged for the piano. Soon everybody was playing it. Then a music firm bought of Suppe for \$25 the right and published the score. They made a clear \$40,000 with it.

In Mourning.

A peer, who was the master of a fine hunting pack, died, and his widow refused to let the hounds go out. Thereupon a friend asked a former chief justice of England, who was himself a huntsman, whether any harm would be done if the hounds were allowed to run with pieces of carne round their necks. "I can hardly think that even carne is necessary," was the reply. "It would be sufficient if the hounds were in full cry."—London News.

No Use For Him.

"Mildred," murmured a fashionable young man, sinking on one knee, "for your birthday gift I offer you—myself."

"Thank you," was the cold reply.

"But I only accept useful presents."—Philadelphia Inquirer.

His Pun.

She (watching the steamer passengers—See those two 'German' girls? What lovely hair they have! Now that's what I call real golden hair. He—Nonsense. Can't you see it's plaited?—Philadelphia Press.

Perhaps but few realize the magnitude of the tomato raising industry, or the enormous amounts of that fruit that is consumed in this country annually.

From a despised and rejected plant that sprang up occasionally, and was looked upon as poison, and unfit for food, fifty years ago, it has increased in popularity until at the present time there are several times more tomatoes consumed, raw, cooked and canned, than any other one kind of fruit that is grown in this country.

The championship record for killing, scalding and picking chickens is claimed by C. E. Williams, of Minneapolis, Minn., who one day recently dressed 160 chickens in 100 minutes, with out help, at the plant of the Sprangue Commission Co. He challenges all comers.

Fort Farm For Sale. In eastern part of Adair county, Ky., 13 miles northeast of Tarter post office, 100 acres, 65 in cultivation, good condition, balance in timber, less five room house, barn and other outbuildings, 5 good springs, orchard and good out side range. Price \$1000. For information call on or address:

Marcus Tarter, Tarter Post Office, Adair county Ky.

PLUCKING BATS.

A French Industry That Is Linked With the Restaurants.

"I plucked bats in Paris once at 4 francs a day," said a sailor. "Bats liberate in the winter. What I mean is that they fall into a kind of drugged sleep. In this black sleep, slung together in big black, soft packages, they hang from the roofs of caves or the inside of chimneys. See?" I was down on my luck—I was studying art in them days, and I was over in the Latin quarter, or Cart-shay, as we used to say, give me a job of bat plucking.

"He showed me the ropes the first day. I soon got on to it. It was dead easy. Just go into a cave, you know, locate a bunch of bats and then pluck 'em one at a time like grapes and drop 'em in your burlap bag. All that winter I'd set out from the Cart-shay with my big bag in the morning, and on toward night you'd see me staggerin' back along the Bull Moon, as we called the Boulevard Michel, loaded down with liberatin' bats."

"You don't feed these to your clientele, Jacques?" I said to the boss one night.

"Maybe—oh, yes," said he. "They always figure in our farfamed one franc dinner."

"I gave him a reproachful look. 'That's meat is excellent,' he says. 'The meat is pluck and very fine. Fried in butter with a parsley sauce, the gourmets in the Cafe Angles could never, never tell it from venison.' 'You wouldn't catch me eatin' it,' says I.

"He chuckled and nudged me in the ribs. 'No?' says he. 'No? And yet, mon vieux, the bat largely figures in our excellent five sou navarin that you so dearly love?'—Cincinnati Enquirer.

LINCOLN'S IRONY.

His Reply to a Petition For a Dishonest Boy's Pardon.

The Hon. Alexander H. Rice once paid a visit to President Lincoln on behalf of a Boston boy who had been imprisoned for robbing his employer's letters. After reading the petition, signed by many citizens of Boston, the president stretched himself in his chair and asked Mr. Rice if he had met a man going down stairs.

"Yes, Mr. President," replied Mr. Rice.

"His errand," said the president, "was to get a man pardoned out of the penitentiary, and now you have come to get a boy out of jail?" Then, with characteristic humor, Mr. Lincoln continued: "I'll tell you what it is, we must abolish these courts or they will be the death of us. I thought it had enough that they put so many men in the penitentiary for me to get out, but if they are now begun on the lower end of the scale and have roped you in, the delivery let's after them!" "They deserve the worst fate," he went on, "because, according to the evidence that comes to me, they pick out the very best men and send them to the penitentiary, and the present condition shows they are playing the same game on the boys and sending them all to jail. The man that you met on the stairs said that his friend in the penitentiary is a most exemplary citizen, and Massachusetts must be a happy state if her boys out of jail are as virtuous as this one appears to be who is in."

"Yes, down with the courts and deliverance to their victims. Then we can have some peace!"—Boston Post.

The French Schoolboy's Hard Day.

French children are often on their way to school a little after 7 o'clock in the morning. If they have concluded their lessons by 9 o'clock in the evening it is only by dint of great application. Young men studying for the higher professions have appointments with their tutors at 5 o'clock in the morning in summer time; otherwise they cannot accomplish the mountain of work that lies before them. In all branches of the labor of the French is immense. At the conservatory the strenuous life is carried to a point which provokes the student, and even of laborious German students.—Pall Mall Gazette.

How High a Tiger Can Jump.

For the benefit of the prospective big game hunters a correspondent finally disposes of the theory that a tiger is unable to jump to any height from all fours. He recalls that he took refuge in a tree from a particular tiger. The beast, however, jumped up to him. "He was within half a yard of me," he said, "and it was only by leaping up with my right and swinging both barrels down his mouth that I did not have a very bad time of it." The moral evidently is that when ascending a tree it is necessary to find a tree with its lower branch at least fifteen feet from the ground.—Tulsa Field.

Compensation.

"I must have an iron bedstead," declared a tourist at a hotel.

"Right," answered the landlady. "I am sorry, but I have a single iron bedstead in the 'ans. But you will find the mattress very nice and hard, sir?"—London Mail.

A Kiss and a Pill.

"What is the difference between a kiss and a pill? One is hard to get up, and the other is hard to get down."

"The difference that their most being the loved."—Virginia.

Good Looking Brides Wanted.

Shortly after an angry looking couple bounced out of the chapel the pastor of an upstart church presented a perplexed countenance before his bride's sexton.

"As you know," said he, "I am new in this parish and new in the city. Perhaps there are a few things I ought to know. Why, for instance, do so many people who never attend service in this church wish to be married here?"

"Because our church," said the sexton, "has the name of turning out the youngest and handsomest brides in New York. Our reputation for good works is dwarfed by our reputation for beautiful brides. To say that a woman is married here is equivalent to saying that she is a 'good looking' woman. We are not supposed to deal in brides of any other description."

"No wonder," groaned the pastor, "that that plain looking woman went away in a huff. I earnestly advised her to be married in her own parish."

—New York Globe.

Wonders of a Japanese Hamlet.

Perhaps the most astonishing presentation of "Hamlet" ever seen on any stage was a Japanese version given by native actors at Kobe. The Kobe Herald describes it as "a wonderful mixture of the beautiful and the grotesque. With an Ophelia sometimes graceful kimono and sometimes in western evening costume and a king who at one time appears in the picturesque costume of a Japanese nobleman and at others dons a silk hat and a swallowtail coat, the effect is so kaleidoscopic that a spectator has the sensation of being perpetually transferred from one phase of civilization to another. The climax is reached in Hamlet himself, who in the earlier scenes wears the uniform of a student of the Imperial university, in the third act makes his appearance in a kimonos clad in a bright blue cycling suit and striped stockings, and at the finish is seen in conventional evening dress with a flower in his buttonhole."

The Sixteenth Century Carver.

At the formal banquet of the sixteenth century the man who carved the meat was bound with the red tape of precedent. When carving for distinguished guests he had to remember that certain parts of the birds or meat must be set aside. In carving for his lord and lady he was expected to exercise great discretion in the size of the pieces he sent round, "for ladies will be soon angry and their thoughts soon changed, and some lords and some ladies are of a peculiar kind of complexion." He was expected to have the rules both of the kitchen, the peerage at his knif's end. A pike, for instance, must be divided up whole for a lord and in slices for commoner folk. The rank of his diner-out determined whether a pie was to be served up whole, sliced, plain or with gold leaf or whether new bread or bread three days old should be eaten.

A Hungry Rabbit.

"I do not think I was ever so disappointed in my life," said a countryman, "as when performing my cart and rabbit trick. I ask a member of the audience to determine whether a pie and give them all to me except one. Later in the trick I produce a rabbit from a box, and tied round its neck is a card with a piece missing. It is then found that the piece which the member of the audience holds exactly fits and completes the second card. On this particular occasion I allowed the rabbit to remain in the box too long and when I produced him found that he had chewed the card round his neck to bits. Needless to say, the laughter when the audience grasped the trick the animal had played on me was loud and long."

As Walter Saw It.

Walter, and several, is a wise son who knows not only his own father, but his own mother likewise.

"Now, Walter," said the teacher, "if your father is in a piece of work one hour and your mother could also do it in one hour, how long would it take both of them to do it together?"

"Three hours," replied the scholar without hesitation.

"Wrong!" said the teacher. "How do you make that?"

"Three hours," repeated Walter stolidly, "because the time they do waste arguing about how it should be done."—London Scraps.

All Marriages Are Love Marriages.

"Was it a love marriage, do you think?"

"Certainly. All marriages are love marriages."

"Is that rather a sweeping statement?"

"Not at all. There is a love of all virtues, you know, love of justice, love of advertising and of various other kinds of love. There is no need of going into details when one speaks of a love marriage."—Chicago Post.

As It Laid.

"I wonder if anybody's as lucky as I am," exclaimed the first peasant, "to have a wife who has all the good things of life."

"That's what the other," "You're lucky. It's better to never have any luck at all than to have it and then to lose it."—Philadelphia Press.

The Average.

"Oh, what a life," said the employer's man, "to have a wife who has all the good things of life."

"The only way to be as good as he is," said the other, "is to be as good as he is."—Athens Echo.

Ella.

Health of this community is very good at this writing.

Mrs. Ella Pike and sister Mattie were visiting at J. B. Abrel's last Sunday.

Mr. Frank Miller who has been confined to his room for some time is able to be out again.

Miss Annie Winfrey and sister Cora, were visiting at N. B. Dillingham's last Thursday.

Mr. Oscar Hardwick who has been to Texas, for some time, returned home a few days ago. We are all glad to see him.

Miss Pearl Williams visited Miss Emma Hardwick one night last week.

Mrs. Sarah Abrell and Lou Dillingham and Miss Mary Goodin, visited Mrs. Ella Pike one day last week.

General News.

A tuberculosis hospital will be built on the county poor farm at Paducah.

The National Druggist Association held its session in Louisville last week.

Uncle Ben Turner, aged 90, a veteran of several mountain wars is dead at Middleboro.

Pruett Graham has declined the Republican nomination for Mayor of Frankfort.

A man supposed to be H. L. Humphries, of Wheeling, W. Va., was run down and killed by a C. and O. train at Newport.

The explosion of an ammonia tank in Cleveland caused \$50,000 damage at the plant of the Cleveland Provision Company.

Lucien J. Irvin was elected president of the Louisville, Henderson and St. Louis Railroad Company at a meeting of the board of directors.

To satisfy a night rider damage judgment, a Federal Court officer sold the interest of Alfred Chaudet in a tract of land in Marshall county.

Burns which he received about the body and arms will result in the death from tetanus of George Richmann, aged eleven years, of Latonia.

Dr. D. K. Pearsons, of Chicago, will give \$100,000 to Berea College provided the trustees raise \$400,000 additional. Dr. Pearsons said this would be his last gift of this character.

James Wall, who killed his brother, John Wall, in Mason county, was sentenced to three years in the penitentiary for manslaughter.

The Elkhorn Baptist Association which has been in session at Midway, adjourned to meet at Georgetown in September, 1910.

State University opened its forty-first annual session with an enrollment of 625 in all departments. This is the largest first-day matriculation in the history of the institution.

Word comes from Dubunk that Joe Bryant, a farmer residing near there, committed suicide in cornfield near his home Saturday.

From the best information obtainable it seems that he took double precaution of not making a failure, first arranging a shot on a fence so that when he fell with the rope around his neck, the gun would be fired and the contents fall judgment in his body. His scheme worked perfectly for when he was found the contents of the shot gun were in

his body, while the empty weapon with a string attached to the trigger was lying near by. Bryant had gone into the cornfield to pick some beans, and being absent longer than his family thought necessary they started out to hunt him and found him as above described.—Somerset Journal.

Sign Post to Coney.

They got on a different car from the one they usually boarded at the bridge.

"I don't believe," said he, "that this car goes to Coney. The man said it did, but it seems strange to me, this way."

"You'll know," said she, "if it passes a graveyard."

"There's an undertaker's shop," exclaimed he presently. She shook her head.

"An undertaker's shop won't do," she said. "It must be a graveyard if it's going to Coney."—New York Press.

Easy Money.

"When a farmer can draw \$50 a month from the sale of cream from a small drove of cows that is what I call easy money." This remark was made by C. C. Brecheisen, a well-to-do farmer of Lyndon, Kan. "Of course, there is some labor about taking care of a lot of cows. That is, it requires punctual work, but the work is no harder than tending crops, and not as hard as working in the harvest field. Modern farm dairying has done away with a whole lot of the drudgery that formerly fell on the farm wife. By using the hand cream separator and selling the cream, churning is eliminated. And preparing the cream and doing the churning was about the hardest work about the farm. In using the hand separator the work is over in a few minutes, and the cream is sold for spot cash. The old way was to handle the milk several times before it was churned, and then take the butter to town. Most every one well knows that country butter, as a rule, was a poor seller. It was of varied colors and flavors. This was not the fault of the farmer's wife. She had to work at a disadvantage, not having ice and the machinery with which to work the butter as it is done in the big creamery. So the country butter sold at a low price. But the cream sells for just what it is worth, and according to the tests of its richness. If the farmer depends upon wheat and corn for his revenue, and both crops fall short, he has little to fall back on. But if he would add a few good dairy cows, that would fill in very well, and pay the running expenses of the family the year through."

The Atlanta Horse Show.

With prize money offered in cash to the amount of \$5,500 and expenditures for feature attraction which will run the total to be spent for exhibits well above the \$10,000 mark, the third annual exhibition of the Atlanta Horse Show Association, which is to be held at the Auditorium-Armory October 19, 20, 21, and 22, will eclipse anything Atlanta has ever known in the shape of an equine event.

The prizes in the open classes have been doubled so that with only a few exceptions \$100 is offered for the first prize.

Nervous Women

For nervous, tired women, we recommend Cardui. Cardui is a woman's medicine. It acts specifically on the female organs and has a tonic, building effect on the whole system. It contains no harmful ingredients, being a pure vegetable extract. If you suffer from some form of female trouble, get Cardui at once and give it a fair trial.

TAKE CARDUI

It Will Help You

Mrs. W. W. Gardner, of Paducah, Ky., tried Cardui and writes: "I think Cardui is just grand. I have been using it for eleven years. I am 48 years old and feel like a different woman, since I have been taking it. I used to suffer from bearing down, aches, nervousness and sleeplessness, but now the pains are all gone and I sleep good. I highly recommend Cardui for young and old." Try it.

AT ALL DRUG STORES

Ruby.

We are having some rain now, and it was badly needed.

Mrs. J. W. Harvey is on the sick list at this writing.

Mr. George Staples the grocer drummer, called on S. E. Estes one day last week.

Mr. Virgil Wilson, who has been in a very bad condition from falling from the roof of a barn, is able to be out again.

X. W. Scott was the guest of Mr. E. K. Roe, of Sparksville, last Sunday.

Mr. Arthur Royse and family visited the family of Mr. John Royse last Sunday.

Mr. Chou Royse was the guest of Mr. Clarence and Dardald Strange last Sunday, of Inroad.

X. W. Scott made a business trip to Breeding one day last week.

Mrs. Creo Harvey was the guest of Mina Scott one evening of last week.

Mrs. X. W. Scott was the guest of Mrs. Dora Estes last Sunday.

The Dublin Inland Horse Show has been in existence 41 years. It had a very modest beginning in a small inclosure in the heart of the city. In 1889 it secured its present grounds at Bald's Bridge, and since that date it has grown in popular favor until it has become one of the biggest horse shows of the world. The entries each year are from 1,000 to 1,200 and the attendance from 50,000 to over 65,000.

For best results in the vineyard plenty of water is necessary. During the hot season sub-irrigation is advisable.

Gradyville.

I We have had a few days, of very cool weather.

Mr. and Mrs. J. A. Diddle spent several days in Columbia last week.

Quite a number of our people attended the speaking and court in Columbia last Monday.

Mr. and Mrs. C. O. Moss attended the Quarterly Meeting at Pickett's Chapel last Sunday.

A. B. Henderson is nearing the completion of a large tobacco barn for Geo. H. Nell, of this place.

R. W. Shirley and C. M. Hindman, of the Milltown community, were in our midst one day last week.

Our citizens have been busy for a few days working the roads. We are glad to say they have made great improvements on them.

Mrs. Rilda Bullington has been dangerously sick for the past week or so with fever.

Mrs. Laura Francis and son, of Cane Valley, spent a few days here last week visiting the families of G. T. Flowers and C. O. Moss.

Mr. G. E. Nell and wife spent last week in Louisville buying goods for this market.

Mr. Will Lyon, the popular groceryman, of Campbellsville, was shaking hands with his many friends in our town last Friday.

Mr. W. C. Yates, the well-known merchant, of Portland, was in our town last Friday and reported business good and everything moving along nicely in his section.

Mr. Sherman Reece, a well-known citizen, of Nell, died with typhoid fever on the 24th. We understand that there are several more cases in that community.

Rev. W. M. White, who has been pastor at Union for the past three months, has decided to remain over until after the first Sunday in October and preach for us on that day. Everybody invited to attend.

A very sad death occurred at the home of Mr. and Mrs. Lewis Dohoney's, of the Keltner community, last Wednesday. A fourteen-year-old daughter of Mr. and Mrs. Dohoney was out in the tobacco patch where her father was at work. A limb blew from a dead oak tree striking the young lady on the head, killing her almost instantly. Mr. and Mrs. Dohoney has the sympathy of the entire community in this sad hour of affliction.

Mrs. Millie Hill spent last week in Louisville buying millinery goods for this market. She informed our reporter that she would have her display of hats on exhibition on Saturday October the 2nd, and invites her friends to call and see them.

Mr. L. M. Wilmore, one of our best farmers and citizens, sold his farm and part of the crop grown on said farm this year, for the consideration of \$2,400.00, to Mr. T. E. Cook, of Horse Cave, Ky. We regret to give Mr. Wilmore and family up from our community and only trust that they may locate some where near by, but as they have sold, we are only too glad to say that we are delighted to have Mr. Cook and family in our community.

Dunnville.

Claud Hatter and George Cundiff attended the State Fair last week.

Mr. and Mrs. Rube Jones visited the family of J. D. Jones last week.

Louis Cundiff was down from Liberty last week.

Willie Evans bought several head of cattle in this community last week at fair prices.

The box supper at Goose Creek school house was well attended and a nice time reported.

Josh Wesley, of Phil, visited his brother, Noble Wesley, one night last week.

There was a big party at the home of Joe Thomas last Friday night in honor of the 21st birthday of Mrs. Thomas. A large crowd was present and all report a good time.

Mr. George Ellis has gone to Indiana again. We fear he will wear himself out trying to get settled.

Misses Mary Lay and Vera Dickinson visited Miss Clemmie Lay, at Pellyton last week.

Luther Ford has been very sick for several days, but is better at this writing.

Mrs. Owen Ellis is visiting her father, Joe Henson, on Damron's Creek this week.

Rev. Crit Baker preached at Luttrell's Creek last Sunday.

If we don't have rain soon we will be out of water in this community.

Billie Chelf has moved from the farm of Ras Combost to his brother's farm.

Mr. and Mrs. Noble Wesley visited the family of George Williams Sunday.

Frank Bernard has been confined for the last few days with a large swelling on his throat.

Jim Lawhorn has moved to the farm of G. W. Rubart's on Luttrell's Creek.

Several of our young men were at Jones's Park last Saturday.

We understand that the Democrats of Pellyton precinct have nominated Hon. W. G. Ellis for Magistrate for that district.

J. D. Jones will move to Pellyton in a few days.

J. A. Pelley has about finished cutting his tobacco crop. The crawfish didn't help him cut his crop.

Tom Lay will soon have his new house ready to move into.

Mr. — Mearthy was in this community last week selling maps.

James Dickinson and W. G. Ellis are in Campbellsville this week on business.

Ben Russell will move to his farm on Goose Creek in a few days.

Weed.

The health of this community is very good at present.

The people are most all through cutting tobacco.

Miss Millie Roach was the guest of Mrs. Lizzie Breeding, last Sunday.

Mr. Tom Moss and wife were visiting at Mrs. Porter England's last Sunday.

Mr. Chas. Sparks and wife left for Horse Cave where they will attend the fair.

Mr. Strong Hill has almost completed his mill at this place,
